

Particle is trying to engage with **Gen C** (the Covid&Climate generation) and share ideas about living in a world of uncertainty.

We ask you to record yourself while speaking your mind about some hot topics.

Instructions:

- Take a vertical video.
- Make sure the lighting is fine.
- Don't bother cutting or editing the video if you mess up. We'll take care of it.
- In the next pages you'll find some possible topics we would like you to address but feel free to add your own if you wish!

What does it mean to
design a “social”

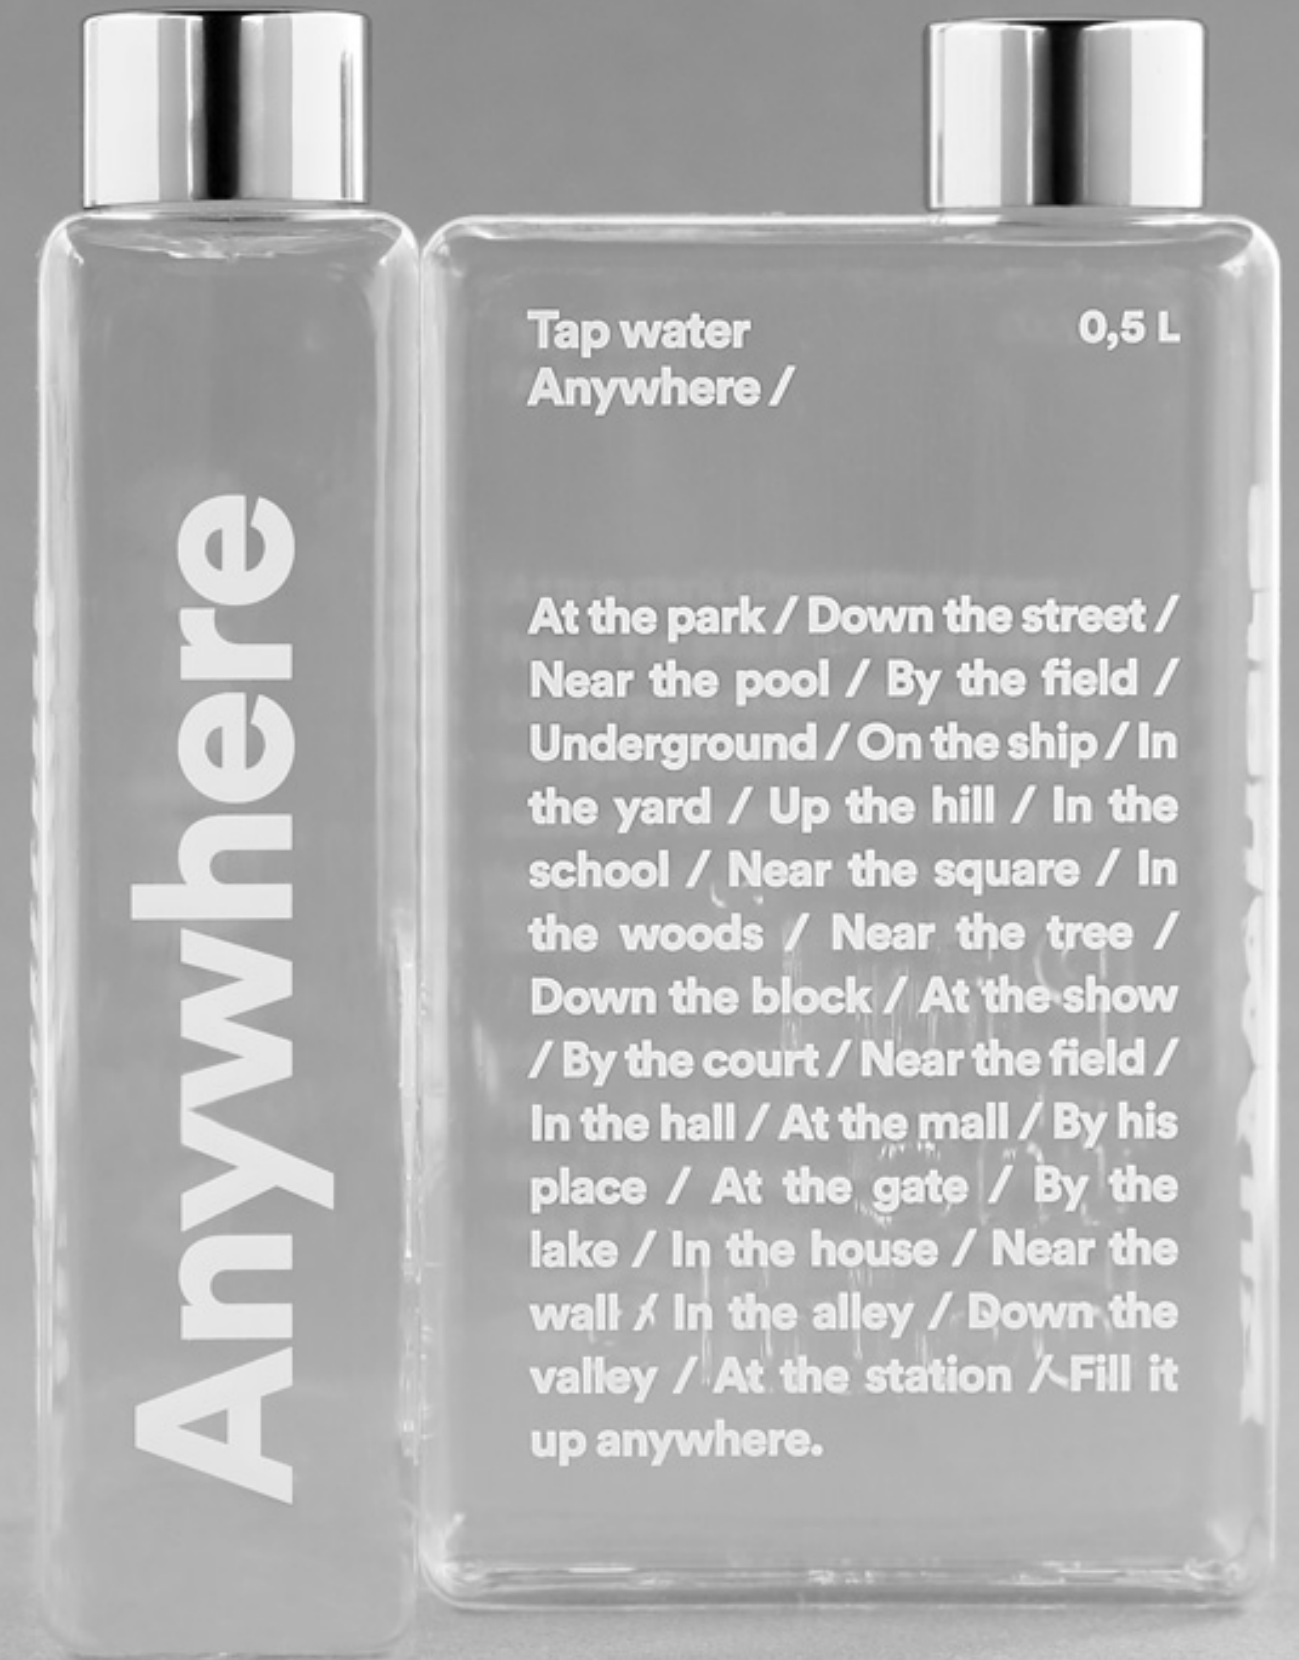

OBJECT or
ENVIRO**N**MENT?

Can you think of an
example in your city?

Talk about a successful case study of a "SUSTAINABLE DESIGN" developed by a famous brand or design studio.

What is the
RELATIONSHIP
between design
as a profession
and sustainability?

How can we live
TOGETHER
in times of uncertainty
and transition?
Can design be
the answer to cope with
uncertainty?
