

Multimedia Arts and Design

A constant flow of sounds and visions in space.

You will be an expert in the field of audiovisual and multimedia design, acquiring advanced technological skills and experience. You will be able to create multimedia installations and spaces, interactive, sound and immersive environments, audiovisual performances, virtual stage sets, videomapping, virtual and augmented reality works and much more. You can set up public and private spaces, collaborating with museums, festivals and major cultural events. The high level of knowledge and specific technical skills learnt over the two years will transform you into an innovative and qualified professional figure, capable of responding to the new international artistic and creative environment.

PUSH - Mattia Alongi

Admission test

The admission test is designed to assess students' aptitude and motivation to undertake the RUFA education project.

Admission to RUFA is open to all first-level graduates, each with specific admission modalities according to the pathway of origin.

How will the test take place?

A motivational interview supported by a portfolio and/or, in absence of that, your graduation thesis.

How will the committee be composed?

The committee will be composed of some of the course lecturers.

Payment method
